

Malolo
ISLAND • FIJI

DRONE/RPA (Remotely Piloted Aircraft) USAGE POLICY

Personal use of an RPA/Drone at Malolo Island Resort is strictly prohibited and is considered to be violation of privacy.

Fiji Air Navigation Regulations state that no aerial devices can be operated:

1. Within 3km/1.9m of an aerodrome reference point of a domestic aerodrome and within 5km/3m of an aerodrome reference point of an international aerodrome.
2. So to impinge on the safe operations of aircraft.

The waters in front of the Resort are frequently used by seaplanes and are as such considered legitimate landing areas. In addition the nearby Likuliku Lagoon Resort helipad is a registered Helipad and therefore falls under the 3km/1.9m zoning mentioned in point 1 above.

Any violation of this policy may involve suspension and removal from the Resort as well as confiscation of drone equipment and any film footage and may subject violators to any damages, including but not limited to, damages for violations of privacy, or for physical or personal or property injury as well as regulator fines and legal fees.

Vinaka vaka levu for your cooperation.
